## Why it is worth to build a culture of social innovation in higher education institution?

**Collegium Civitas**  
More than just studies!

UNIVERSITY OF ICELAND  
SCHOOL OF EDUCATION

This course is an abridged and enriched version of the MOOC on Social Innovation created by Ashoka Poland as one of the intellectual outputs of the *Building the culture of social innovation in higher education* project implemented by Collegium Civitas in partnership with the University of Iceland, the University of Northampton and Ashoka Poland, co-founded by the European Commission. Similarly to other intellectual outputs of the 'Building the culture of social innovation in higher education' project it is meant to support the development of social innovativeness mainly by serving as a tool useful for teaching processes in that area.
